

WPDESIGNER.COM

THEMES CLUB

How do you make \$5 last for a year? As a Wpdesigner.com WordPress themes club member, you get at least 12 paid WordPress themes (1 per month) and guaranteed support for \$5.

The Themes

You can use each theme under multiple domain names. Whether it's one site, one hundred sites, or more, you do not need to pay any more than \$5. Also, feel free to use Wpdesigner club themes for client projects without a developer license.

As you can see, Wpdesigner club themes are different from what you've seen in the premium themes market. Furthermore, they don't come with footer copyright messages that you typically have to pay for the right to remove. Most importantly, [Wpdesigner themes](#) are focused on design, flexibility, and ease of use, rather than fancy effects. They look good and they make putting ads on your blog easy because their structures are designed around ads.

The Support

Your membership comes with two support systems. The [ticket system](#) is for private support and the [forums](#) are for community support. (Typically, questions at the forums get faster responses.)

Besides high quality themes and guaranteed support, your feedback is very important. Therefore, you're encouraged to collaborate with Wpdesigner.com to come up with your ideal theme by submitting requests for new themes and features.

The \$5 Idea

A large part of the \$5 idea is making money off of users that would never pay for a \$100 theme in the first place by providing high quality at a low price, then invest the profit in hiring talented designers and programmers to develop future themes based on your requests.

Wpdesigner.com's vision and goal is a community of millions of theme users supporting each other and pooling money (from the \$5 membership fee) to release one theme per day at a budget of \$1500 per theme. If Wpdesigner.com themes club reach its goal, you'll get more than \$500,000 worth of themes and support services for \$5.
